Hello Cloudflare team,

Cloudflare is building its Indonesia public sector book with sellers who use AI every day, and I already run my prospecting and proposals through AI workflows. I am a Business Development Manager in Jakarta with five years of B2B sales and channel partnerships in enterprise IT and corporate healthcare.

At Sinar Mas Land (OneSmartServices) I closed IDR 10B+ in contract value across eight enterprise deals, averaging IDR 1.25B each, and finished 2025 at 115%+ of quota for smart CCTV and network infrastructure. At Siloam Hospitals Group I built an outbound pipeline in HubSpot aimed at HR and procurement, with about 20 qualified prospects and 10 discovery meetings a month, which brought in 12 new corporate accounts and IDR 750M in first-year team revenue.

I have not sold to government agencies. My buyers have been large Indonesian corporates, and I know the procurement, Legal and Finance steps that long Indonesian deals go through. I speak Bahasa Indonesia natively. I am based in Jakarta, one hour behind Singapore, and would relocate with employment pass sponsorship.

I would welcome a short call to understand the account list and the partner route to public sector. My CV is attached.

Best regards,
Ryan Hadi
