Hello Datadog team,

You need someone to prospect into large enterprises in the Philippines and sell on value and ROI, which is how I closed my largest infrastructure deals. I am a Business Development Manager in Jakarta with five years of B2B sales and channel partnerships in enterprise IT and corporate healthcare.

At Sinar Mas Land (OneSmartServices) I closed IDR 10B+ in contract value across eight enterprise deals, averaging IDR 1.25B each, and finished 2025 at 115%+ of quota for smart CCTV and network infrastructure. At Siloam Hospitals Group I built an outbound pipeline in HubSpot aimed at HR and procurement, with about 20 qualified prospects and 10 discovery meetings a month, which brought in 12 new corporate accounts and IDR 750M in first-year team revenue.

My closing experience is in Indonesia, not the Philippines, and I have not sold observability. I have sold cloud and managed services to enterprise IT teams, and I build relationship maps across Legal, Finance and Operations to move large deals. I am based in Jakarta, one hour behind Singapore, and would relocate with employment pass sponsorship.

I would value a short call on how the team approaches the Philippines market. My CV is attached.

Best regards,
Ryan Hadi
