Hello GitLab team,

GitLab wants a Strategic Account Executive who prospects into named accounts with strategic channel partners, and selling with partners is the core of my current role. I am a Business Development Manager in Jakarta with five years of B2B sales and channel partnerships in enterprise IT and corporate healthcare.

At Sinar Mas Land (OneSmartServices) I closed IDR 10B+ in contract value across eight enterprise deals, averaging IDR 1.25B each, and finished 2025 at 115%+ of quota for smart CCTV and network infrastructure. At Siloam Hospitals Group I built an outbound pipeline in HubSpot aimed at HR and procurement, with about 20 qualified prospects and 10 discovery meetings a month, which brought in 12 new corporate accounts and IDR 750M in first-year team revenue.

I have not sold developer tools or worked with Git. I learn technical products quickly through partners and solution architects, which is how I ramped on smart CCTV and network infrastructure. I am based in Jakarta, one hour behind Singapore, and would relocate with employment pass sponsorship.

Could we set up a short call to talk about the Singapore territory and the partner mix? My CV is attached.

Best regards,
Ryan Hadi
