Hello Stripe team,

Your Startups team wins founders by working inside the startup ecosystem, and that partner-led motion is the part of my work I would bring first. I am a Business Development Manager in Jakarta with five years of B2B sales and channel partnerships in enterprise IT and corporate healthcare.

At Sinar Mas Land (OneSmartServices) I closed IDR 10B+ in contract value across eight enterprise deals, averaging IDR 1.25B each, and finished 2025 at 115%+ of quota for smart CCTV and network infrastructure. At Siloam Hospitals Group I built an outbound pipeline in HubSpot aimed at HR and procurement, with about 20 qualified prospects and 10 discovery meetings a month, which brought in 12 new corporate accounts and IDR 750M in first-year team revenue.

I have not sold payments, and I have not worked at a SaaS vendor. What transfers is the motion: I sell technical infrastructure to buyers who need a clear business case, and I build pipeline through partners, the way your team works with investors and accelerators. I am based in Jakarta, one hour behind Singapore, and would relocate with employment pass sponsorship.

Could we set up a short call to see whether my background fits what the team needs in Southeast Asia? My CV is attached.

Best regards,
Ryan Hadi
